

# Irish Construction Excellence Awards

---

excellence

*noun*

**the quality of being outstanding**

The Irish Construction Excellence Awards (ICE Awards) is the premier prize for the construction industry in Ireland.

# Irish Construction Excellence Awards

Established in 1993 by Irish building, the leading construction media brand for Ireland, the Irish Construction Excellence Awards (ICE Awards) are the most prestigious professional competition and networking event in the Irish built environment calendar.

## ICE AWARDS

The ICE Awards Gala at Home brought together construction managers, directors, chief executives and partners from right across the Construction Industry, design through construction to client representatives, came together to celebrate and recognise the pursuit and achievement of excellence and innovation in construction. The 2020 awards were the single most significant event in construction in Ireland for the year.

## JUDGING

A panel of recognised industry experts from the fields of construction management, engineering and design have been assembled to judge the entries.

Exclusive to the ICE Awards, our judging process is multi level including an Interview Stage where

shortlisted project teams sit in front of our expert judges and present their projects and have Q&A sessions.

This level of engagement is not only of great value to the entrants but puts our judging process on a par with and in most cases exceeds best international practice for professional industry awards.

## SPONSORSHIP

Sponsorship of the ICE Awards is an unrivalled and powerful tool for building and maintaining your brand and corporate awareness.

Leverage customer engagement and put your brand in front of the most influential figures in Irish Construction.

Create news stories for your company and centre your brand with your client base.

The ICE Awards will work with you to plan and manage your activity maximising your sponsorship ROI.

ICE Awards sponsorship has longevity with activity spread across a whole year, sponsors enjoy exposure from the call for entry announcements, major print, digital, web and social media engagement with finalists, at interview stage right up to the Awards presentation event and substantial post event promotion with the winners and sponsors.

Leveraging the full media support of Irish building magazine these prestigious awards have set the event benchmark for the industry.

Benefits are spread across print, online activity, social media, direct marketing, and networking.

The ICE Awards is the perfect prestige platform for your company and brand.

## WHAT DID WE DELIVER?

The ICE Awards are firmly established as the Premier professional awards for Ireland's Construction Industry.

- Ireland's AEC leaders and Clients participate
- Unrivalled branding opportunity
- 250+ annual entries for the Awards
- Coverage and mentions of the Awards on the RTE News Website, Irish Times, Irish Independent, Irish Examiner, and regional news media
- Major coverage in Irish building, print, web & social media
- 750,000+ ICE Awards Twitter account impressions for the latest award
- 300,000+ annual views of ICEAwards.ie
- 25,000+ page views of ICE Awards content on Irishbuildingmagazine.ie & BIMIreland.ie
- 10,000+ LinkedIn account followers
- All finalists and winners promoting on their websites & social media
- Trended on Twitter - Gala night
- Sponsors promoted extensively in print, digital, web & social media
- Over €20,000 raised for charity to-date
- [View our Gala Event YouTube video](#)

## WINNERS FEEDBACK

### BAM

The Irish Construction Excellence Awards are an industry recognised benchmark for excellence in construction project delivery. The judging process is comprehensive, transparent, considered and well conducted.

### John Paul Construction

The entire process from start to finish was efficient, professional and overall a thoroughly enjoyable experience. In these current times to pull off an event that created such an enjoyable atmosphere from our own homes is a credit to the ICE Awards organising team. It was an absolutely top-class event from start to finish. Well done to all involved.

### Sisk

It was great to see the effort that went in and the feel of a real event but from your own home - the host on the night Deirdre O'Kane was excellent as were all the speakers and the live music really added to the experience

### Glan Agua Ltd

This win is hugely important for Glan Agua. The ICE Awards have been an excellent event

to be involved in from the comprehensive submission, to the Judges interviews culminating in a fantastic and well organised awards night. Since receiving this award, the profile of our company, our partners and the project itself has been greatly enhanced.

### JJ Rhatigan & Company

We shared our good news regarding the award wins through our online channels and received congratulations and recognition from across the industry. Achieving an ICE Award enhances the reputation of our company and of all the individuals involved. It is an independent endorsement of our abilities in which prospective clients can trust.

### Gunn Lennon Fabrications Ltd

The ICE Awards win is important to Gunn Lennon Fabrications because an independent team of assessors have validated our work and judged it to be of a high standard. For this reason, it is very important to our company and we are delighted to have won it. The Awards process was most enjoyable. We see the ICE Award as a "badge of honour".

### Mace (Construction Ireland)

The Irish Construction Excellence Awards assembled a very strong Judging Panel made

up of our industry's leading professionals. The Interview Stage was challenging with an excellent level of engagement from each of the expert Judges. This award is particularly special to us when we consider the high calibre of the finalists in this category. Our team and guests enjoyed the Gala Event.

### Purcell Construction

The nomination and winning of the Award is a superb advertisement for our company. The quality of the Judges from varied sectors in the construction industry was very high with the overall award process being very positive. The Irish Construction Excellence Awards has established itself as one of the top, if not the most prestigious nights in the Irish construction industry.

### Collen Construction

Winning an ICE Award provides confirmation to our clients that Collen is an industry leader and fully committed to the highest standards of occupational health, safety and wellbeing in the workplace. It is been extremely positive for our business.

# Meet some of our Judges

## PJ Rudden

BE, Eurlng, CEng, CEM, FIEI, FIAE, FICE, FIGEM, FCIWM, MCIWEM, FConsEI

Engineer

### Irish Construction Excellence Awards 2019

On March 29th, Collen Construction won the Irish Construction Excellence Award for Excellence in Health, Safety and Wellbeing. Well done to Joe O'Dwyer and the Health and Safety team on this achievement.

### Gilead Sciences launches €9.5m unit at Cork plant

Biopharma firm's Carrigtwohill quality control lab to boost output for overseas markets

David Cadogan and Killian MacDonald of Gilead Sciences: firm has invested more than €190 million in its Irish business since first opening here in 1999.

**Dominic Coyle**  
Mon, May 21, 2018, 05:48  
Gilead Sciences has opened a new €9.5 million facility at its Cork plant.

The biopharma giant says the new quality control lab at the Carrigtwohill site will boost its production levels for markets in Europe, the Middle East and Asia.

The new lab was named best commercial/industrial project under €10 million at the 2018 Irish Construction Excellence Awards.

### INMO opens new education and event centre

Updated / Wednesday, 25 Apr 2018 15:09

By **Fergal Bowers**  
Health Correspondent

The Irish Nurses and Midwives Organisation has formally opened its new Richmond Education and Event Centre in Dublin.

The building on North Brunswick Street near the city centre was formerly the Richmond Hospital, which closed its doors in 1987 and moved to Beaumont Hospital, and in more recent years was used for District Court hearings.

The redevelopment of the Richmond was shortlisted as a finalist in the Irish Construction Excellence Awards.

### Insights SISK AND RKD WIN ICE 2018 BIM EXCELLENCE AWARD

Sisk in association with RKD Architects picked up the BIM Excellence Award at the 2018 Irish Construction Excellence Awards for the development of a large data centre campus for a major Multinational Cloud Infrastructure and Operations client.

The Irish Construction Excellence Awards celebrate the best in Irish Construction and deliver a rigorous credible process of assessment.

This multinational data centre project was designed as the pilot scheme project of BIM best practice for any future data centre projects for this client. It will be used as a benchmark project to record benefits and successful practices resulting in efficiencies in the full lifecycle of the facility.

This project focused on understanding and meeting the Client's and user requirements through a process of "collaborate with the end in mind". The
